Docket No. 98N-1265

Food and Drug Administration

5600 Fishers Lane

Rockville, MD. 20857

MAY -7 11:29

I OPPOSE THE DRAFT M.O.U. being proposed by the FDA. In particular, I OBJECT to the definition of "inordinate amount" which restricts the availability and the right to obtain medically necessary compounded medications by limiting the number of prescriptions that can be shipped across state lines from specialized compounding pharmacies.

COMMENTS: I live in a remote area of MT. & for the past 12 yrs.
I have been fooling around w/ "abr. prescribed HRT" with no good
results, since being able to get "natural hormones compounded
just for me, by the pharmacist, and then mailed (I live 50 miles)
from closest city, I have had wonderful results, which allow
me the freedom to live a normal life again, without all the
bad side effects of the "old 1 size fits all" HRT. Having them shipped
to me in a timely & reasonable fashion is even a greater help
since we are far from lg. cities like in the East. These
services are "not available" from commercial pharmacies and
therefore would severely restrict my ability to receive this
medication which I waited for someone to make available
for so long.

In my health's sake please don't restrict
the availability of this service. Thank You

Rockelle A. Hoyer
